# DIPLOMACY NEWS

From GRAUSTARK #274, " TDA membership, which includes a subscription to WAZIR, is \$1 from John Beshara." From WAZIR #4, "the Board of Directors must suspend the publication of Wazir so as to concentrate its efforts towards promoting Diplomacy through our other programs." False advertising is a no-no Boardman!

New Magazines by the Dozen, but you don't get egg roll!

ARRAKIS: Is published by John Leader, Box 1606, Huntsville, Ontario, CANADA. Featured in issue #1, are things like game openings(two- \$4.00 fee, countries by lot, One for experienced players, other for novices: state your experience, air mail service for foreigners, \$1 discount for IDA members), contests(spelling spelling mistakes, free game to those spotting 10 or more(if I held one like that, can you imagine...)) Pun-of-the-Month Club...the person who submits best pun gets some free issues, Grinding the axe(he's going to let his opinions fly), and an ad for MARCUS which makes the whole thing worthwhile! Subscriptions are 100 pages for \$1.00, which is the cheapest anywhere. I recommend this one!

CARPET BAGGER: Is the result of Stephen Ball, P.O. Box 1787, Davidson, NC 28036. This is one of the better new ones from south of the border(growing under the border). There are six games openings: CbA: for skilled players, CbB: same as CbA, Barents and Proujansky playing. CbC: a press release game, Massar and Trtek playing. CbD: novice game. CbE: Novice game, playing are: Chin, Walker(p.) Greenwood, Nayer, Richard I, McBride, and Groos, one more needed. CbF: for anyone. All games except CbF require a game fee of \$8.00. \$4.00 of this will be refunded when the game is completed: the idea is to prevent drop outs. CbF requires a game fee of \$4.00 with no refund....\$2.00 fee for traders. Looks good.(Good articles too).

SPQR: Is produced by James Massar, 127 N. Ramona St., Danamora, NY 12929. There are game openings in Origins of War, and the Youngstown Variant, and others as there is Massar. The game fee is subscription to the line(\$1.00 plus postage) plus \$1.00. The best thing about SPQR, is that Massar mouths off a lot, and you can try to think he is! Good one anyways, if you like variants. Oh, that sub rate is \$1 a year.

PULSAR: Is from Mark Thomas, 470 Johnston Dr., Watchung, N.J. 07060. This one is a little special. The game fee is 00000 dollars! that's: \$0.00. So, you take no risk whatsoever in this one. To play though, with your orders, you must tell Mark why you moved as you did...what you expect to gain! Also, you must include all correspondence you received since the last deadline: it will be copied and returned. What Mark will be doing is, with the games publishing game histories: the games running will be republished whole when completed with the comments etc. Your comments will not be published till then. All you need do is send your name, address, phone number, and preference list, and your in a game. Do it now!

Recommendation: I think only a few people would read this page, but it is a good idea to have it.

**IMPASSABLE:** Published and edited by John Boyer, 117 Garland Dr., Carlisle, Penn. 17013, is considered by many to be the best line on the market, and what to me, save that I can't believe that this line and some other lines. Always has articles, polls, question and answer column, Diplomacy news, and games. There are game openings in one experienced game, and a variant: Sootice Scripti III, game fee \$5.00. Subscription rate is \$25.00 and up.

**SAGUENAY:** Is published and edited by Conrad von Metake, box 8342, Sand Kgo (San Diego), California 92102. All games are all-around. I can't believe that this line is so good, but I can't believe that this line is so good. Game fee is \$5.00. Articles of one type or another, based on a postal. Saguenay average, which makes it a good game. Canadian players, about subscription rate, but I think it's 10 for a dollar, which is really good. Saguenay average, which makes it a good game. Other sime, but I think it's 10 for a dollar, which is really good.

In matters, get in by the Negro vote? Not likely, but when he runs, he usually wins with 3 to 1 votes. Not only is he white, but when he runs, he usually wins with 3 to 1 votes. Not only is he white, but when he runs, he usually wins with 3 to 1 votes.

But, that isn't enough. People just have to quit at some times, and when they do, somebody must be there to replace them. So, PLEASE, in the name of MADDEN, register in the standby list. Somebody on the mailing list should be on the standby list. Special thanks to Arnold Preminger.

DEFIAT OF TURKEY: AS SEEN FROM RUSSIA: The view from up here is quite good for now, as the spectre of Austria and Germany loom on the horizon. But as I always say, one united driving force is better than two split ones.

Now to get back on the subject, sure Turkey promised Russia the world, but he wanted the rest of the solar system and the Milky Way in return. No wonder I stabbed him, the sight of him, sitting in his harem (of young college boys), drinking his Kilky Bar and drinking goats milk. The sight turns me green even now. I should have listened to Turkey, many former allies are turning on me. Blah!!

But I promise you, I will write Austria's obituary if it kills me. I can't let that hack guy win, no way. Anyone else, but not that dirty lying, cheating, bastard!! NO WAY!

MARCUS YOUNGSTOWN VARIANT: WINTER 1902.

MARCUS YOUNGSTOWN VARIANT: SPRING 1902

The above is just a rough sketch of the situation. I will not let this deadline! The deadline is:

FRANCE(Peter Burnett), GERMANY(Walker), RUSSIA(Lafosse), JAPAN(Ryan), TURKEY(Wilson).

I think all players where a the matter what, but I think all players did miss! I feel that Burnett, Lafosse, Ryan will continue, but I don't know about Wilson or Walker. For this reason, I submit a send in standby probably to let this is the month that school just returned, I'm letting and re-submitting Ryan: he missed for this miss. I have heard from OCT. 28/72. And, let's have some press releases! You guys who did send moves: no press! That's bad. What beats me is that Cusack submitted moves for this, but not for 72 I. Come on Blair!

1972 BE.....1982

AUSTRIA removes a bud, or rather, builds it (sorry Blair). RUSSIA builds away Warsaw, and the UN (Petr) removes f bal. 1981.

As you all know, there is no storage for this gear, so we can only hope that Bruce will continue to play as Gummery. Likely it is an overnight, as he realized that the GM would remove it, and that the GM had to be removed to remove. He did get in his NY house so I think it's a good idea.

Army Bulgarian to the end of the game, and three. Because of this, I am sure that a very likely player will not want to respond. Thus, the only way to avoid the delay the game becomes the player rate. I plan to contact the player of Lloyd until Lloyd is able to object to the game. If the player objects to the game, I hope no one will object. On decision.

**LEGION:** In order to  
the player list now.

GREECE: Peter R

 SYRIA: John L

 EGYPT: Paul

**GAME OPENINGS:** In VINLAND, there are two game openings (two open games) that need players. You must be a Canadian, or at least live here, and that's all. The game fee is only \$2.00 with a registration form filled out. Join now! Write me for a form; I want you!

In ATLANTICA there may be a game opening depending upon response to ATLANTICA! In order to give you a bird's eye view of the game, on pages 10 & 11 you will find the map for ATLANTICA. You can figure out the European situation easy enough. For the "new world" the placings are:

CANADA: A's Toronto, Montreal, & P's Halifax.  
 USA: A's Philadelphia, Chicago, & P's Boston & New York.  
 CSA: A's Richmond, P's Jacksonville, Charleston.

Also, England gets 3 fleets (leave out any), Italy two, Berlin is another fleet for Germany, and France gets Marseilles & a fleet. Variations in rules:

Convoys: over single spaces are as in Diplomacy. Over more than one, it is necessary for an army to board a fleet, creating an A/F; with a one unit force, which may exist up to five turns....if the army has not disappeared by then, it is annihilated, the fleet remaining. In disembarking, the army part of A/F may move, and the fleet support that move too!

Frozen areas: In the winter, several areas at the top of the board are impassable to fleet action, and fleets caught in a frozen zone must wait there. The frozen period exists from January to April.

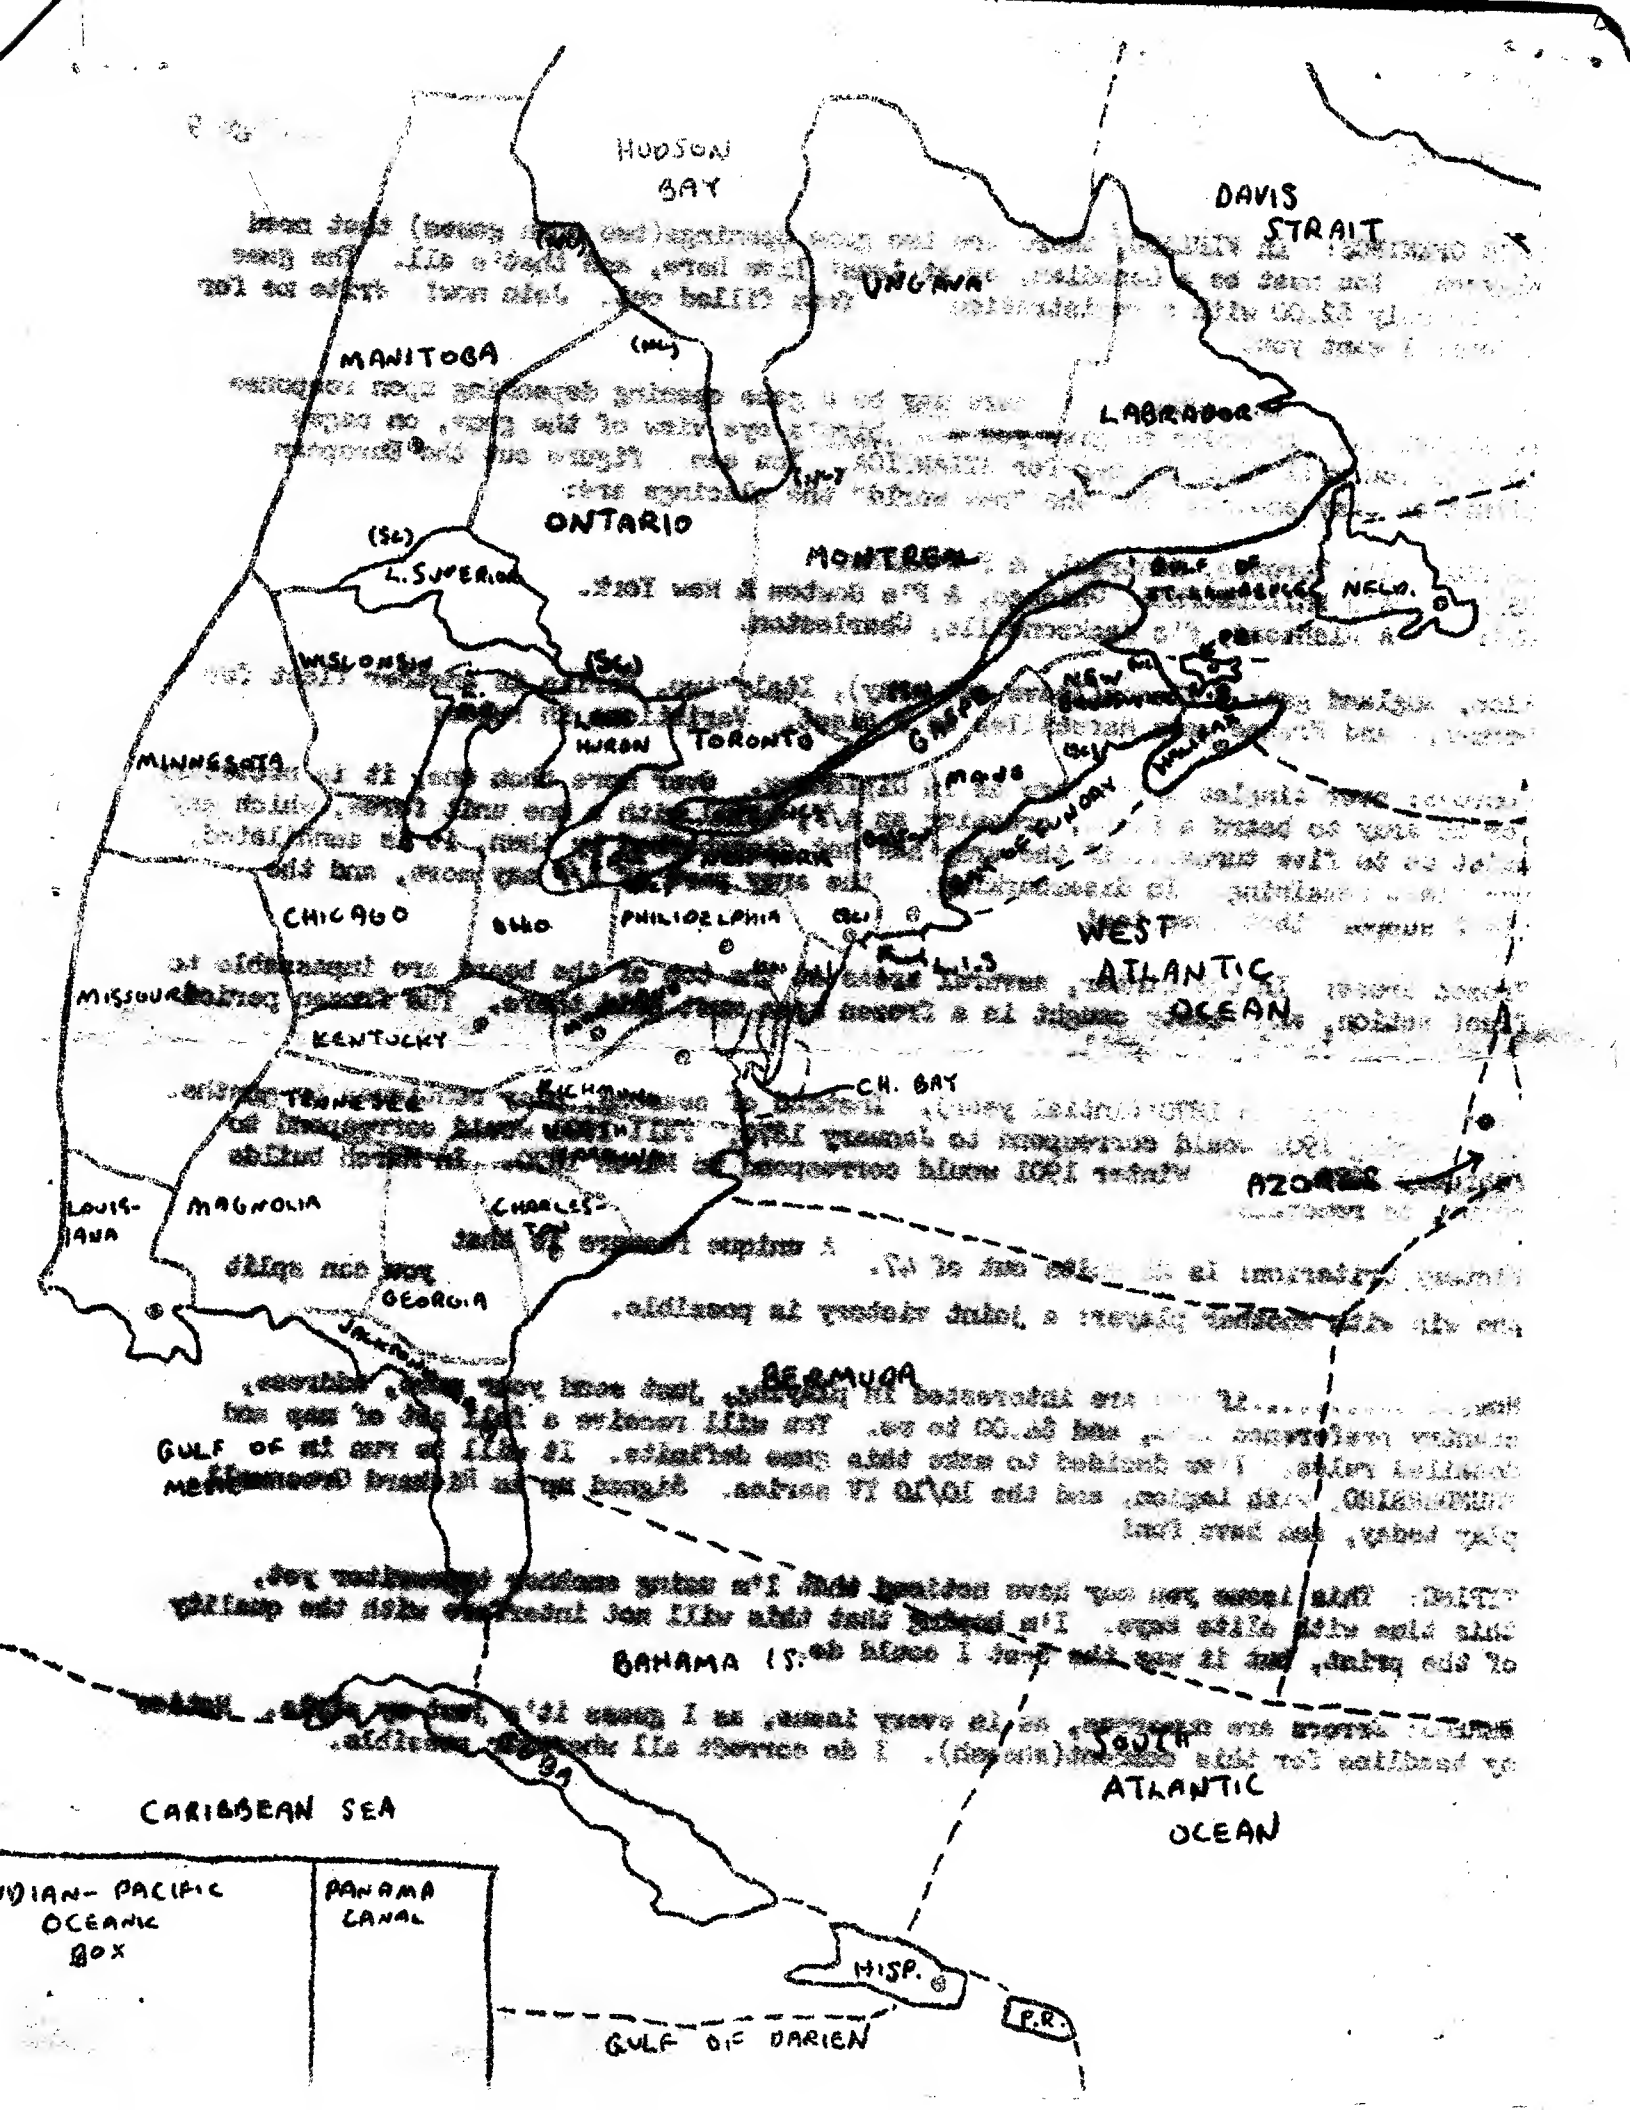

Date: The year is 1970 (initial year). Instead of seasons, play continues by months. ie. Spring 1901 would correspond to January 1970. Fall 1901 would correspond to February 1970. Winter 1901 would correspond to March 1970. In March builds occur, as removals.

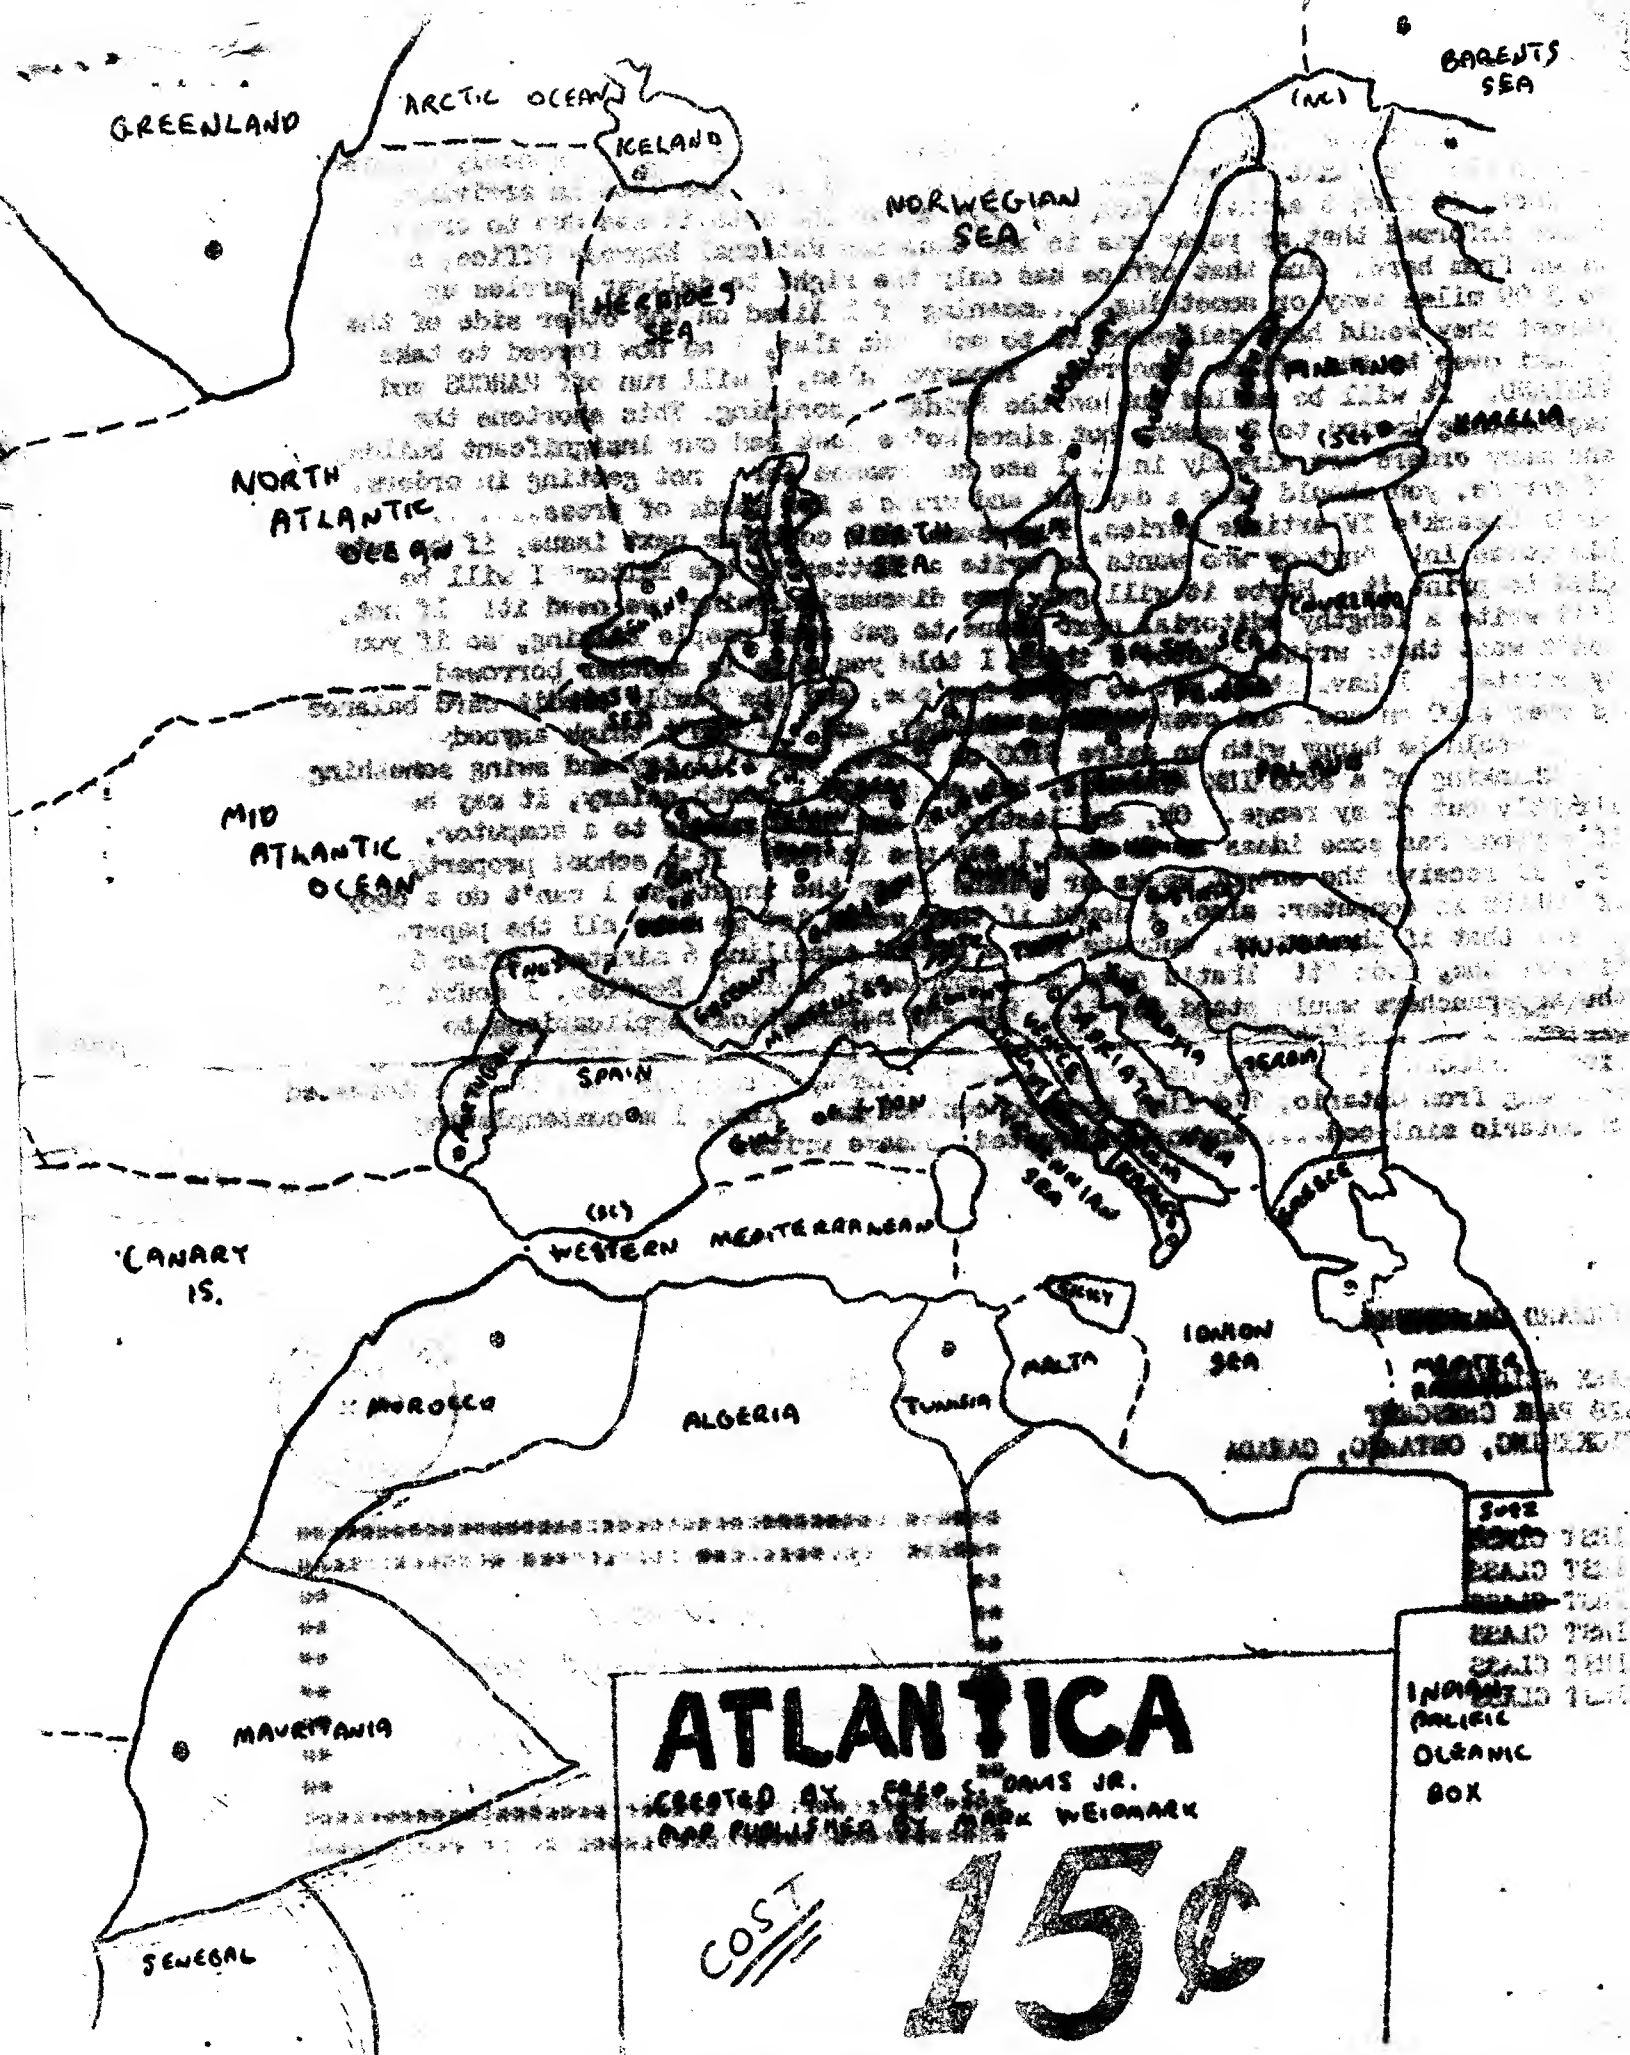

**Victory Criterion:** Is 24 units out of 47. A unique feature is that you can split the win with another player: a joint victory is possible.

Now.....if you are interested in playing, just send your name, address, country preference list, and \$2.00 to me. You will receive a full set of map and detailed rules. I've decided to make this game definite. It will be run in the THUNDERBOLT, with Legion, and the 10/10 TV series. Signed up is Richard Greenwell, play today, and have fun!

**TYPING:** This issue you may have noticed that I'm using another typewriter yet, this time with elite type. I'm hoping that this will not interfere with the quality of the print, but it was the best I could do.

**ERRORS:** Errors are numerous, as in every issue, as I guess it's just my style. Notice my headline for this comment (cheese). I do correct all errors possible.

LATE EDITORIAL, OR COMMENTS AS YOU WISH: This issue has been reasonably delayed due to the fact that my shipment of paper from AB DICK was late in arriving. In fact, it didn't arrive! Today, 5 days after the date it was due to arrive, I was informed that my paper was in the Canadian National Express Office, 4 miles from here. And that office has only the right to deliver parcels up to 3.09 miles away or something....meaning if I lived on the other side of the street they would have delivered it to me! But alas, I am now forced to take a taxi over to the office tomorrow. Tomorrow also, I will run off MARCUS and VINLAND. It will be mailed out on the Friday - morning. This shortens the negotiating period to 2 weeks, but since we've just had our insignificant builds, and many orders are already in...I see no reason for not getting in orders. Of course, you should take a day out and write a few words of press..... Blair Cusack's IV article series, I believe will continue next issue, if he gets his moves in! "Anybody who wants to write a letter to the Editor" I will be glad to print it. Maybe it will get some discussion going; we need it! If not, I'll write a lengthy editorial next issue to get some people talking, so if you don't want that: write "Letter" I told you this in another borrowed typewriter. I have still got to buy a new one, as my family credit card balance is over \$100 on one, and over \$100 on another, and I don't think anybody would be happy with an extra \$100 on their card. I'll try and swing something. I'm thinking of a 3000 IBM terminal, but on my \$1000 month salary, it may be slightly out of my range. Oh, and lastly, I am going to a computer, if anybody has some ideas as to what I can use it for. It's school property so I'll receive the output, marks or grades after the input, so I can't do a copy of MARCUS in computer: also, I doubt if they would let me have all the paper. I hear that if the output, outputs for a period of 6 minutes, after 6 minutes they stop it! That'd give me a complete output. Besides, I doubt if the key punches would stop. Oh, and lastly, I am going to a computer, if anybody has some ideas as to what I can use it for. Oh, and lastly, on my mind, DIPLOCON VI is being held once more in Chicago this year, and those interested in going from Ontario, I'd like them to contact me. Also, I'm contemplating an Ontario mini-con.... anyone interested, please write!
